

Cybersecurity for Finance Professionals And Organisations

3 CPD HOURS

Programme Code: P181207FFW

Course Overview

"... Cyber threats and attacks are becoming more sophisticated, with more severe consequences. We cannot take cybersecurity for granted." Prime Minister Lee Hsien Long, in Singapore's Cybersecurity Strategy (Cyber Security Agency of Singapore).

This course review a variety of as well as up-to-date cyber threats to both (i) organisations as well as for (ii) individuals, especially those who handle numerous financial trades either on their own or their clients.

Upon understanding various cyber threats and attacks, different strategies as well as tools will be introduced to mitigate the risks from financial losses, data breaches as well as intellectual property theft. Forensic autopsies will also be performed on various local and overseas cyber attacks and data breaches with proposed remedies.

Course Objectives

After attending this workshop, participants will be able to gain a better understanding about cyber security, identify its threats and challenges, and how to effectively mitigate the risk in today's fast-growing digital world.

Each participant will also be given unlimited access to a curated knowledge bases covering:

1. Information Security
2. Cyber Forensics
3. Data Protection & Privacy.
